Carol indicated that she had to be tree warden on a sewage line blockage on Court Street. There is not room for a replacement tree.

Carol and Susan could not plant the rose bushes because of weather problems.

Susan put burlap over the roots of the trees at the Lincoln Center and has left a message for the new director.

Carol & Susan made a list of the trees provided by project Canopy from the tags. Susan will keep the tags and try to put them back on the trees.

Marilyn indicated a business was concerned about the island located at Pleasant Street and Route 1. Ripples Inn on the Harbor will donate funds for this project and someone will need to adopt this location.
