

# **Parks Commission Meeting Minutes**

**February 23, 2012, 4:15 PM @ City Hall Board Room**

Attendance: Bill Pearce, Susan Beebe, Carol Maines & Terry Pinto

Guests: John Root and Kevin Beal

Susan passed out a map of the dump showing where the new trees obtained by the Project Canopy disbursement are. She indicated we only have 20 actual street trees.

John Root indicated he would prefer the street tree coordinates could be identified with utility poles. He is looking forward to getting the information to input on the City maps.

Barley Joe Farm Greenhouses contacted Carol about the baskets. She will call them tomorrow to see what options they might have. White, blue, and yellow are the flowers to be considered.

Carol went to the post office and discovered there are no restrictions about mail boxes attached to trees. Carol needs to talk to the landlord to determine if the silver maple or the cedar was the tree to attach the mailbox to.

Minutes from last meeting are approved.

Terry passed out information about the Adopt-A-Garden program to be considered at a future meeting.

Next meeting will be March 8, 2012, at 4:15 PM.
