

Rockland Energy Advisory Committee

Rockland Public Library on May 26, 2015, @ 3:30 PM EDT

Attendance: Larry Pritchett, Tony Coyne, Brooks Winner, and Bill Pearce. Guests: Ron Huber, Audra Caler-Bell, Judith Lawson

The minutes of May 14, 2015, were reviewed and approved by the Committee.

Larry updated the Committee on the PUC discussions on allowing municipalities to own their own street lights.

There is a possibility of a panel discussion in mid July with EMI. Renderings of the EMI proposed plant would be in late summer.

Should the relocation of City Hall and Public Works Garage proceed, hearings would also be forthcoming. The Energy Committee would be involved in the energy proposals for these facilities.

Next Energy Advisory Committee is June 9 and 23, 2015, at 4:45 PM @ Mural Room in the Rockland Public Library.
